Click underlined x's for photo links

click on underlined species for web links to details about those species

| Scientific name                                                                                      | common names (if applicable)        | Sep-14   | Jul-15      | Sep-15      | Oct-15   | Sep-16      |
|------------------------------------------------------------------------------------------------------|-------------------------------------|----------|-------------|-------------|----------|-------------|
| <u>Akanthomyces aculeatus</u>                                                                        | none                                | x        |             |             |          |             |
| <u>Albatrellus ovinus</u> syn. <u>Polyporus ovinus</u>                                               | "Sheep Polypore"                    |          |             |             |          | <u>x(?)</u> |
| <u>Amanita abrupta</u>                                                                               | "Abrupt-bulbed Lepidella"           | x        |             |             |          | <u>x</u>    |
| <u>Amanita americrocea</u> syn. <u>Amanitopsis crocea</u>                                            | "Orange Grisette"                   | x        |             |             |          |             |
| <u>Amanita amerifulva</u> [often called 'Amanita fulva' -a European species]                         | "Tawny Grisette"                    | x        | x           | x           |          |             |
| <u>Amanita amerirubescens</u>                                                                        | "Blusher"                           | x        | x           | x           |          | x           |
| <u>Amanita banningiana</u>                                                                           | "Mary Banning's Slender Caesar"     | x        | x           |             |          | <u>x</u>    |
| <u>Amanita bisporigera</u> = <u>A. virosa</u> sensu auct. amer. (Ref. RET)                           | "Destroying Angel"                  | x        | x           | x           | x        | x           |
| <u>Amanita brunnescens</u>                                                                           | "Cleft foot-Amanita"                | x        | x           |             | <u>x</u> |             |
| <u>Amanita citrina</u> sensu auct. amer.                                                             | "Citron Amanita," "False Death Cap" | x        |             |             | x        |             |
| <u>Amanita cokeri</u>                                                                                | "Coker's Amanita"                   |          |             | x           |          |             |
| <u>Amanita daucipes</u>                                                                              | "Turnip-foot Amanita"               |          | <u>x</u>    |             |          |             |
| <u>Amanita farinosa</u>                                                                              | "Powdery-cap Amanita"               |          | x           | x           |          |             |
| <u>Amanita flavoconia</u>                                                                            | "Yellow Patches"                    | x        | x           | x           | <u>x</u> | x           |
| <u>Amanita jacksonii</u> syn. <u>A. umbonata</u> , syn. <u>A. caesarea</u>                           | "American Caesar's Mushroom"        |          |             |             |          | x           |
| <u>Amanita marvaliceae</u>                                                                           | "Mary Alice's Amanita"              |          |             |             |          | <u>x</u>    |
| <u>Amanita multisquamosa</u> syn. <u>A. pantherina</u> , var. <u>multisquamosa</u>                   | "Panther"                           | x        |             |             |          |             |
| <u>Amanita muscaria</u> var. <u>flaviovolvata</u> syn. <u>A. muscaria</u> subsp. <u>flavivolvata</u> | "Fly Agaric"                        |          |             |             | x        |             |
| <u>Amanita parvicolvata</u>                                                                          | "Ringless False Fly Agaric"         |          | x           |             |          | x           |
| <u>Amanita spreta</u>                                                                                | "Hated Amanita"                     |          |             |             |          | x           |
| <u>Arachnion album</u>                                                                               | "Granular Puffball"                 |          | x           |             |          |             |
| <u>Armillaria caligata</u> var. <u>glaucescens</u>                                                   | none                                | <u>x</u> |             |             |          |             |
| <u>Armillaria mellea</u> syn. <u>Armillariella mellea</u>                                            | "Honey Mushroom"                    |          |             | x           |          |             |
| <u>Artomyces pyxidatus</u> syn. <u>Clavicornia pyxidata</u> , syn. <u>Clavaria pyxidata</u>          | "Crown-tipped Coral"                |          | x           |             |          |             |
| <u>Aureoboletus auriporus</u> syn. <u>Boletus auriporus</u> syn. <u>Boletus viridiflavus</u>         | "Gold-pored Bolete"                 |          |             |             |          | <u>x</u>    |
| <u>Austroboletus gracilis</u> var. <u>gracilis</u> syn. <u>Tylopilus gracilis</u>                    | "Graceful Bolete"                   | x        |             | x           | x        | x           |
| <u>Boletus bicolor</u> var. <u>bicolor</u>                                                           | "Two-colored Bolete"                |          |             | <u>x(?)</u> |          |             |
| <u>Boletus curtisii</u>                                                                              | none                                |          |             |             |          | <u>x</u>    |
| <u>Boletus frostii</u> syn. <u>B. alveolatus</u>                                                     | "Frost's Bolete"                    |          | x           |             |          | <u>x</u>    |
| <u>Boletus longicurvipes</u>                                                                         | none                                | x        | x           |             |          |             |
| <u>Boletus pallidroseus</u>                                                                          | none                                |          |             |             |          | <u>x</u>    |
| <u>Boletus pallidus</u>                                                                              | "Pale Bolete"                       | x        |             |             |          | x           |
| <u>Boletus roodvi</u>                                                                                | none                                |          |             |             |          | x           |
| <u>Boletus roseopurpureus</u>                                                                        | none                                |          | <u>x(?)</u> |             |          |             |
| <u>Boletus roxanae</u> syn. <u>Xerocomus roxannae</u>                                                | none                                |          |             |             |          | <u>x</u>    |
| <u>Callistosporium purpureomarginatum</u>                                                            | none                                | x        |             |             |          |             |
| <u>Caloboletus firmus</u> syn. <u>Boletus firmus</u> syn. <u>B. piedmontensis</u>                    | "Piedmont Bolete"                   |          | x           |             |          | x           |
| <u>Calocera cornea</u>                                                                               | "Club-like Tuning Fork"             |          | <u>x</u>    |             | x        |             |
| <u>Calocera viscosa</u>                                                                              | "Yellow Staghorn"                   |          | x           |             |          |             |
| <u>Calostoma lutescens</u>                                                                           | "Yellow Calostoma"                  | <u>x</u> | x           |             |          |             |
| <u>Cantharellus appalachiensis</u>                                                                   | "Appalachian Chanterelle"           | x        |             | x           |          |             |

|---------------------|------------------------------|--------|--------|--------|--------|--------|
| Cortinarius species |                              | x      | x      | x      | x      | x      |
| Cortinarius species |                              | x      | x      | x      |        |        |
| Cortinarius species |                              | x      |        |        |        |        |
| Cortinarius species |                              | x      |        |        |        |        |
| Entoloma species    |                              | x      |        |        | x      | x      |
| Gymnopilus species  |                              | x      |        |        | x      |        |
| Hemitrichia species |                              | x      |        |        |        |        |
| Hydnellum species   |                              | x      |        |        |        |        |
| Hygrocybe species   |                              | x      |        | x      | x      | x      |
| Inocybe species     |                              |        |        | x      |        |        |
| Lactarius species   |                              | x      | x      | x      | x      |        |
| Leccinum species    |                              | x      |        |        |        |        |
| Lentaria species    |                              | x      |        |        |        |        |
| Lyophyllum species  |                              | x      |        |        |        |        |
| Marasmius species   |                              | x      |        |        |        |        |
| Pluteus species     |                              |        |        |        | x      |        |
| Ramaria species     |                              | x      | x      |        |        |        |
| Ramaria species     |                              | x      |        |        |        |        |
| Ramaria species     |                              | x      |        |        |        |        |
| Russula species     |                              | x      | x      | x      | x      | x      |
| Russula species     |                              |        |        | x      |        |        |
| Russula species     |                              |        |        | x      |        |        |
| Scleroderma species |                              |        |        | x      |        |        |
| Suillus species     |                              |        |        |        | x      |        |
| Tyolopilus species  |                              |        |        |        |        | x      |
| Xylaria species     |                              | x      |        |        |        |        |

*Note: This species list is not representative of all mushrooms present on a given date. Collecting is limited to certain trails and locations and not all specimens found are always gathered. Many of the collected specimens never get identified or recorded for various reasons, which include (but are not limited to): time restraints and condition of specimens.*
