<b>In you notice any errors, discrepancies or inaccuracies, please click below:</b>	<b>Total Species identified</b>	<b>20</b>
<b>Email Contact</b>	<b>New Species identified (1st time here)</b>	<b>20</b>
<i>The specimens noted below were among those not identified to species:</i>		
<u>Cantharellus</u> species		x
<u>Hymenochaete</u> species		x
<u>Marasmiellus</u> species		x
<u>Russula</u> species		x
<u>Strobilomyces</u> species		x
<u>Trametes</u> species		x

Note: This species list is not representative of all mushrooms present on a given date. Collecting is limited to certain trails and locations and not all specimens found are always gathered. Many of the collected specimens never get identified or recorded for various reasons, which include (but are not limited to): time restraints and condition of specimens.

For best printing results, reduce margins and print landscape mode on legal paper
